**RECOGNITION: MR. EDWARD GARCIA - LOS ANGELES COUNTY OFFICE OF EDUCATION TEACHER OF THE YEAR**

Mr. Edward Garcia, teacher at Bella Vista Elementary was recognized by the Board of Education for being selected as the Los Angeles County Office of Education Teacher of the Year.

**PRESENTATION: SMARTER BALANCED ASSESSMENT CONSORTIUM (SBAC)**

Dr. Allison Garland - Director of Educational Services, Mr. Stephen Bartlett - Program Specialist for Assessment and Data, Ms. Sandy Cohen - Program Specialist for ELA and ELD, and Donna Holland - Program Specialist for Math, presented the Smarter Balanced Assessment Consortium (SBAC) results for 2017-2018 school year.

[A copy of presentation “California Assessment of Student Performance and Progress (CAASPP) results,” is attached to the Official Minutes of the Board of Education meeting for October 22, 2018, as pages 2a(1) through 2a(29).]
The Board of Education recognized students, families, and school personnel who met the Local Control and Accountability Plan (LCAP) annual measurable outcomes, which were to demonstrate a minimum three percent growth in attaining Standard Met or Standard Exceeded in English Language Arts and Mathematics and received the following grants. Dr. Martinez congratulated all students in the District for striving to do their best while enrolled in our district and also thanked the teachers, administrators, and support personnel for working collaboratively to provide the best schooling experience possible for our students. Dr. Martinez also thanked the parents/guardians and community members who work with the students so that they can continue making progress in our educational system.

The following schools where recognized where the students met the minimum three percent growth in either English Language Arts or Mathematics:

DISCUSSION AND ACTION ITEMS

#6A - RESOLUTION NO. 8(2018-2019) BOARD TO APPROVE OR DENY THE T.I.M.E. COMMUNITY SCHOOL PETITION PURSUANT TO EDUCATION CODE SECTION 47605

Elvira Alvarado and Richard Gonzalez, legal counsel presented to the Board of Education an overview of the Findings of Fact on the T.I.M.E. Community School petition. The Board of Education shall either grant or deny the petition to establish a charter school in accordance with Education Code Section 47605.

The Montebello Unified School District Board of Education received a copy of the charter petition for T.I.M.E Community School on September 11, 2018. In accordance with the timelines set forth by Education Code section 47605, the Board of Education held a public hearing on October 4, 2018 to consider the level of support for the petition by teachers employed by the school district, other employees of the school district, and parents/guardians.

Following review of the petition and the public hearing, and consistent with the timelines set forth by Education Code section 47605, the Board of Education must either grant or deny the charter petition within 60 days of receipt of the petition, provided, however, that the date may be extended by an additional 30 days if both parties agree to the extension.

In determining whether to grant or deny a charter, the Board of Education must carefully review the proposed charter petition, District staff findings, consider public input, and determine whether the charter petition satisfies the criteria established by law. The Board of Education must also review whether the charter petition provides information regarding the proposed operation and potential effects of the school, including the facilities to be utilized by the school and the payment thereof, the manner in which fiscal services are to be provided, a school level plan, definition of educational activities, liability insurance, reserve funds, and potential civil and fiscal liability effects on the school and school district.

The Board shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the findings specified by law.

A copy of the “Charter Petition for T.I.M.E. Community Schools,” is on file in the office of Educational Services.
EXHIBIT “A”
FINDINGS OF FACT

I. No Single Location of the Charter School

The Education Code requires the Charter Petition to “identify a single charter school that will operate within the geographic boundaries of [the District].” (Ed. Code § 47605(a)(1).) Here, the Charter Petition fails to identify a single location where it will operate. The Charter Petition states that “[t]he exact address is still to be determined and [they] are targeting the central/middle area of the district.” (Charter Petition at p. 116.) Petitioners seek to lease private facilities and anticipate that they will identify three viable facilities options by December 2018. (Charter Petition at p. 116.) Thus, the Charter Petition does not identify a single location for the charter school as required by law.

II. The Charter School Presents an Unsound Educational Program for the Pupils to be Enrolled at the Charter School

The Charter Petition presents an unsound educational program based on the design of the instructional program and the nature of the strategies intended to support students of different capabilities and backgrounds.

a. Quality of Instructional Program Design Is Deficient

The Charter School proposes to offer a limited selection of UCCI courses that fall into a mishmash of CTE critical pathways. At best, the educational program represents a wish list of courses selected based on incomplete and inadequate information. Additionally, students are expected to be assigned “demonstrations of mastery” (assignments) at the beginning of each week, not in connection to any instructional time. Without tying assignments to specific lessons, it may be difficult for students to connect knowledge and application. Accordingly, the educational program lacks organization and cohesiveness, in direct contrast to the Charter Petition’s stated goal of not having students “complete isolated tasks that appear unrelated or irrelevant.” (Charter Petition at p. 7.)

The instructional program and course descriptions fail to present clear pathways for students to take Advanced Placement (“AP”) Classes. Although there are 2 AP science classes offered, it is highly unlikely for students to take more than 1 during 9th grade because they are required to take “Foundations of Science.”

While the Charter School plans to exclusively use Pearson instructional materials for English Language Arts, Mathematics, Social Science, Arts, and English Language Development courses, the Pearson curriculum is rated as not meeting expectations. Further, the Charter School will only employ 9 teachers in its first year and offer few core classes even when fully operational.

b. Proposed Special Education Program is Inadequate

The Charter Petition requires that low-achieving students exhaust the 3-tier intervention program before being recommended for special education assessments, which potentially violates child find under the Individuals with Disabilities Education Act (“IDEA”) and related California law. The Charter Petition also fails to address the transition requirements for special education students.
c. **Program for High-Achieving Students Is Flawed**

The Charter School plans to offer no honors classes and very limited AP courses. Although 5 of the classes proposed are described as “AP,” only 3 of them will be College Board-approved. (See Charter Petition at pp. 16-30.) Further, and in lieu of honors classes, “[s]tudents will be clustered by skill level based on standards mastery in ELA and Mathematics within otherwise heterogeneous classes.” (Charter Petition at p. 45.) These “clusters” of high-achieving students will be given more difficult assignments that are (presumably) graded on a more difficult scale. (Charter Petition at p. 45.) Even though the Charter Petition plans to support high-achieving students by having experts provide specialized workshops, there are no funds identified specifically allocated for this purpose.

Additionally, high-achieving students will be offered opportunities and benefits not available to others. The Charter Petition provides no set criteria or timeline for identifying and separating students into high-achieving “clusters.” Without objective policies and standards, there is high potential for abuse and bias. Because there is no discernible program for high-achieving students, academic records may not reflect that certain students were identified as high-achieving and given more advanced coursework. The Charter School’s design will disadvantage high-achieving students as those students proceed into their post-secondary educational careers.

d. **Lack of Electives and Foreign Language Courses**

The only foreign language that will be available to students will be Spanish. It is extremely difficult to see how Spanish 3 can cater to both new learners (whose only Spanish capabilities are from taking Spanish 1 and 2) and native speakers (who have no other choice but to take the class in order to meet their graduation requirements). By offering only one track of Spanish foreign language classes, the program effectively discourages students from pursuing foreign language.

While the Charter School describes itself “[a]s a STEAM school that will focus heavily on the arts,” the proposed art curriculum does not make students competitive for a career in the arts. Additionally, the Charter Petition makes no mention of physical education classes or student athletics. Though the Charter Petition allocates a budget to employ a physical education teacher, it is unclear how such course will fit into the proposed schedule.

e. **Block Scheduling/T.I.M.E. Periods Are Problematic**

While the Charter Petition boasts that scheduling courses will allow for “deeper learning” (Charter Petition at p. 33), the 90-minute block is divided into 45 minutes of instruction and 45 minutes of “T.I.M.E. periods,” which are essentially free periods. (See Charter Petition at p. 8 [“During each T.I.M.E. period that week, students will work on their demonstrations of mastery, making choices along the way related to what they work on, whom they work with, and how long they work on any given task”].) The Charter Petition anticipates that many goals will be achieved during this T.I.M.E. period. However, these objectives cannot happen simultaneously given the limited number of staff that Petitioners plan to employ. In its first year, the Charter School will not employ any Resource Assistants, Psychologists, Tutors, or student support staff; and there will be only one special education teacher. (Charter Petition Budget Narrative at p. 3.)
Further, the only staff available to support and supervise students during T.I.M.E. periods will be the regular classroom teachers. This raises serious concerns as to whether there will be adequate supervision of all students, especially given the “border free classrooms” in which learning will occur. (Charter Petition at p. 13.)

f. Excessive Reliance on Online Applications

The Charter Petition depends heavily on the use of online applications such as Schoology and Illuminate to measure pupil progress and in the delivery of educational content. This would exacerbate the challenges faced by socio-economically disadvantaged students, who may not have reliable Internet connection. The Charter Petition addresses this by stating “all students will have equal Internet access,” without any further explanation. (Charter Petition at p. 11.) It is unclear how this will be accomplished. There are no funds or mechanisms specified to achieve this objective.

III. The Charter Petition Does Not Contain a Reasonably Comprehensive Description of All Sixteen Required Elements of a Charter Petition

The Charter Petition does not contain reasonable comprehensive descriptions in compliance with the law.

a. Educational Program

The Charter School plans to improperly rely entirely on the District to provide all necessary supports, services, and assessments required for its special education students. (Charter Petition at p. 48-50.) Further, it is implicitly stated that all students requiring an alternative placement will be referred to the District. (Charter Petition at p. 48 [“All students with disabilities will be fully integrated into the programs of TCS”]; Charter Petition at p. 52 [“should a student’s IEP Team determine that the student requires an alternative placement, the school will work with Montebello Unified School District to ensure an appropriate placement and services”].) This reliance on the District to provide assessments may lead to problems given that Petitioners plan to notify the District within 5 days of receipt of a request, which places enormous pressure on the District to provide timely assessments. (Charter Petition at p. 51.)

To the extent the Charter School will be responsible for planning IEPs, the description of the program in the Charter Petition is inadequate. There is no mention of transition assessment, planning, and services required for special education students.

The Charter Petition’s description of the educational program also fails to provide adequate supports for homeless, foster, and LGBTQ students. There are no specific supports to address the unique challenges of each subgroup.

b. Measurable Pupil Outcomes

The Charter Petition does not contain measurable pupil outcomes. Of the three goals listed in the petition, two of them are not measurable and one of them is completely contrary to the other educational pupil outcomes.
The first goal is that “[a]ll students school wide, and within each subgroup, will graduate from [T.I.M.E. Charter School] fully prepared through a standard aligned education program, to complete college, excel in careers, and be contributing members of their community.” (Charter Petition at p. 62.) Whether or not a student is prepared to complete college and excel in his or her career is not measurable at the time the student graduates.

The second goal is that: “[a]ll English Learners will make annual progress to language fluency and reclassification as fluent within 5 years.” (Charter Petition at p. 63.) This goal goes against the basic educational goal of having students graduate on time to have a goal that spans 5 years.

The third goal is that: “[T.I.M.E. Charter School] culture and physical environment will be inclusive, responsive, and supportive of student academic achievement.” (Charter Petition at p. 63.) School culture and environments are not measurable, and they are not student outcomes.

c. Method for Measuring Pupil Outcomes

The Charter Petition states that while it tends to use a variety of methods to measure pupil outcomes it fails to describe specifically what data these methods will use or how the data will be analyzed. (Charter Petition at pp. 65-67.)

d. Governance Structure

The Charter Petition does not adequately describe the processes to be followed to ensure parental involvement. It states that “the Parental Advisory Council will be the primary vehicle by which parents are involved in governance decisions.” (Charter Petition at p. 73.) However, in describing the role of the Parental Advisory Council, the Charter Petition only states that it “will make recommendations to the principal regarding activities (e.g., parent workshops, teacher recognition, Read-A-Thons, etc.). These activities are only tangentially related to the actual governance of the Charter School. The Charter Petition also states that the Parental Advisory Council will promote “[g]overnance meetings,” but it does not explain what these meetings are or how they relate to school governance. (Charter Petition at p. 74.)

e. Employee Qualifications

The Charter Petition does not contain descriptions of important employee positions such as: School Psychologist, STEM Coordinator, Art Coordinator, Facility Manager, and Assistant Principal. The Charter Petition also fails to describe the qualifications for any support and classified staff positions including: IT, Resource Assistant, Student Support Staff, Facility, Supervision, and Tutor.

f. Health and Safety Procedures

The Charter Petition contains only boilerplate language that the Charter School shall maintain a policy on various statutorily required health and safety policies without describing such policies. (Charter Petition at pp. 83-85.) For instance, the Charter Petition has no description on the complaint procedures under its anti-discrimination and harassment policies. (Charter Petition at pp. 84-85.) Further, the Charter Petition simply states that Charter School will adhere to Education Code sections regarding administration of medication in school, and that it will do so by providing staff training. (Charter
Petition at p. 84.) However, the Charter School does not intend to employ a school nurse, and there is no specific budget or timeline for providing this training to its staff members.

g.  **Racial and Ethnic Balance**

The Charter Petition lists several strategies and “targeted outreach efforts” to “achieve the desired demographic.” (Charter Petition at p. 86.) However, there is no discussion of when these efforts will be implemented, and who will be responsible for this outreach. Further, there are no specific funds allocated in the budget for this work.

h.  **Suspension and Expulsion Procedures**

The suspension and expulsion procedures listed in the Charter Petition replicates applicable sections of the Education Code and fail to discuss alternative methods of correction or pre-suspension discipline and procedures. (Charter Petition at pp. 91-107.) The Charter Petition also mentions but fails to describe restorative justice practices or how such practice will result in “a reduction in bullying and other interpersonal conflicts.” (Charter Petition at p. 12.)

i.  **Dispute Resolution Procedures**

The Charter Petition fails to describe or discuss the procedure for resolving disputes that may revoke the charter of the Charter School. (Charter Petition at pp. 111-112.) In fact, “any dispute that is any way related to the revocation of the charter school” is specifically exempt from the dispute resolution procedures outlined in the Charter Petition. (Charter Petition at p. 111.)

IV.  **The Petitioners are Demonstrably Unlikely to Successfully Implement the Program Set Forth in the Petition**

For the reasons set forth below, Petitioners are unlikely to successfully implement the program set forth in the Charter Petition.

a.  **Inadequate Assurances and Affirmations**

Under the Education Code, charter school petitions are to contain a statement of affirmations and assurances that they will comply with all relevant laws. The Charter Petition contains generic catch-all statements to that effect, but it fails to mention many applicable laws. It does not mention Senate Bill 359 (the California Mathematics Placement Act of 2015) which requires fair, objective, and transparent placement policies that give all students access to advance math classes if qualified. The issue of placing students at the appropriate math level is not addressed. The Charter Petition also fails to mention any specific laws governing the placement of foster children or homeless youth. In fact, the Charter School plans to assign teachers “lead responsibility for the coordination of foster youth and homeless youth services,” a practice that potentially violates Education Code section 48853.5 (requiring local educational agencies to designate one staff person as the educational liaison for foster children). (Charter Petition at p. 44; Ed. Code § 48853.5(c).)
b. **Inadequate Signatures**

The Charter Petition does not contain adequate signatures from teachers to demonstrate that teachers are interested in teaching at the Charter School. The Charter Petition only contains signatures of five teachers, two of whom are credentialed to only teach English.

c. **Apparent Misunderstanding of Graduation Requirements**

Petitioners state that the student A-G completion rate will be 75% with 2% increases annually, and that the graduation rate will be 85% with 2% increases annually. (Charter Petition at p. 62.) However, completion of A-G requirements is required in order to graduate from high school.

d. **Miscellaneous Reasons**

Petitioners have budgeted to lease the space and make vendor repairs, but they have not budgeted to build the layout described in pages 13 and 14 of the Charter Petition. The Petition fails to state that the District bears no responsibility for Charter violations including compliance issues arising under the IDEA, Section 504, ADA and other applicable law.

Mr. Rick Olivarez, legal counsel informed President Flores that when the public hearing was held for this item Board Member Cárdenas and Board Member Cupchoy were not present. They were not able to review the minutes or public comment from the October 4, 2018 meeting when the public hearing was held. They are not able to vote on this item.

Three members of the audience addressed the Board of Education during public comment expressing their opposition to the charter school petition. Included in the three audience members who addressed the Governing Board, was the President of the Montebello Teachers Association (MTA).

That the Board of Education adopt the Findings of Fact, attached in the Resolution No. 7 (2018-2019) identified as **Exhibit “A”** and incorporated herein by reference, and deny the charter petition for T.I.M.E. Community School.

Mr. Cisneros made a motion to deny the T.I.M.E. Community School Petition Item #6A, seconded by Mr. Chacon:

President Flores called for a roll-call vote to deny the petition.

Ms. Flores: Aye
Mr. Chacon: Aye
Mr. Cisneros: Aye
Mr. Cárdenas: Abstain
Dr. Cupchoy: Abstain

Rick Olivarez, legal counsel declared the motion carried by a 3-0 vote to deny. Mr. Cárdenas and Dr. Cupchoy, abstained as they were not present for the public hearing at the October 4, 2018, Board of Education meeting.
[A copy of “Resolution No. 8(2018-2019),” is attached to the Official Minutes of the Board of Education meeting for October 22, 2018, as pages 10a(1) through 10a(8).]
