YOUR choice DETERMINES YOUR FUTURE

What is Pathways?

- Pathways to College and Career Success is an effective educational approach to high school that combines academic courses with Career Technical Education.
- Pathways offers students challenging, academic and technical hands-on experiences in real-world projects and provides the opportunity to learn what they love, connecting student’s school work with their interests.
- Pathway courses are incorporated into the traditional school day.
- Pathways introduces students to a variety of college and career options early in life, so they have a clearer sense of where to go and what to do.

Where is Pathways offered?

There are 11 Career Themed Pathways offered throughout all four MUSD high schools:
